

## Palazzo at Naples offers luxury homes, country club access

Palazzo at Naples by Toll Brother is an intimate, gated community in North Naples. The community features award-winning home designs, a low-maintenance lifestyle, and natural gas in every home. Homeowners enjoy convenient benefits such as exterior yard maintenance, security monitoring, and common area maintenance.

For residents seeking a country club experience to complement their Palazzo at Naples home, several options nearby are available, including Quail Creek Country Club, Quail Village Golf Club and Longshore Lake.

Palazzo residents have the option of joining Quail Creek Country Club as an Associate or Social Member with no initiation fee. The club features an extensive calendar of social events. This holiday season, members can enjoy Brunch with Santa, Christmas Day Buffet, and New Year's Eve Dinner. Early next year, there are an array of fun events from which to choose, including Greek Night, a New York, New York celebration, and a Valentine's Day Dinner.

Quail Creek Country Club also offers two Arthur Hills-designed 18-hole championship golf courses, 13 Har-Tru tennis courts, a pool, bocce court complex, and a fitness center, along with fine and casual dining.

"Palazzo at Naples truly provides the best of both worlds — a worry-free, luxury lifestyle and a wide variety of nearby social activities to enjoy with friends and family," said Arjun Kaul, project manager for Palazzo at Naples.

Palazzo at Naples offers seven home designs, priced starting in the low \$400,000s. Homebuyers can create a dream home that reflects their individual lifestyles by selecting from hundreds of available options at the Toll Brothers Southwest Regional Design Studio.

Toll Brothers' communities in Southwest Florida also include Bonita Lakes and Cordova at Spanish Wells in Bonita Springs, and the newest community, Azure at Hacienda Lakes, a master planned community of more than 400 luxury coach and single family homes in Naples scheduled to open in early 2017.
