moisturisers.

Seal in all the benefits with powerful

HYDRATE

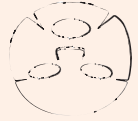

say hello to bright eyes.

Eye: Apply the Hydrating Eye Essence and

in some joy.

Serums: Apply the Vitalizing Serum and soak

Mask and relax.

Mask: Apply your Hydrating + Lifting Sheet

ENHANCE

Balance the pH levels of your skin and prep it

Remove dirt, oil, and impurities first.

PRE-CLEANSE/CLEANSE

Adding the **Hydrating + Lifting Sheet Mask** to your skincare

regimen is simple.

how to fit a SHEET MASKING INTO YOUR ROUTINE:

how to SHEET MASK?

1. Remove the mask from its package.

2. Gently unfold and place the mask on your face, making sure to align the cutouts to your eyes and mouth.

3. Relax for 20 minutes. **Really relax.** Try watching a movie, listening to your favourite music, or close your eyes and take a bath while you sheet mask.

4. Carefully remove the mask and discard. **Do not** rinse the excess product off your face. Simply pat the serum into your skin instead.

5. Complete the rest of your Celavive routine with the Vitalizing Serum, Hydrating Eye Essence, and your Celavive moisturiser of choice. **Voilà!** Now that's what we call #skinconfident.

what is a SHEET MASK?

Sheet masks are easy-to-use, at-home beauty treatments that dramatically enhance your complexion in just one application. The face-shaped sheet fabrics are soaked in a highly concentrated serum. During application, the woven cotton prevents the serum from evaporating so it can soak deep into your skin to deliver immediate and lasting results.

WHEN TO SHEET MASK?

Anytime after you have cleansed and toned your face. Ideally, at least 2-3 times a week.

You can sheet mask in the morning before applying your makeup or at night so your skin can soak up all the radiance while you sleep.

USANACELAVIVE

hydrating + lifting SHEET MASK 101

REVEAL YOUR YOUTHFUL RADIANCE WITH
